New Equipment Designation

1. The following designation was assigned 11 June 1958:

TA-1A . . . Transmitter Adaptor. This unit is an improved version of the previously designated TA-1, Transmitter Adaptor. The following are several of the changes that have been made:

1. The antenna load block has been removed,
2. The final coil will be a torroid wound type,
3. The transmitting key has been redesigned,
4. The complete unit is now packaged in a commercially available, standard type case.

2. This designation was made on a tentative basis pending approval of this memorandum.
